ABOUT US

– Craftwave: Pioneering Excellence in Textile Paper Cone Manufacturing.

At Craftwave, we take immense pride in being a leading manufacturer and supplier of high-quality textile paper cones, catering to the diverse needs of the textile industry. With years of expertise, cutting-edge technology, and a strong commitment to innovation, sustainability, and customer satisfaction, we have established ourselves as a trusted name in the market.

- Our Journey & Vision

Craftwave was founded with a vision to revolutionize the textile packaging industry by providing superior-quality paper cones that ensure seamless yarn winding, enhanced durability, and sustainability. Over the years, we have continually evolved, embracing modern manufacturing techniques, stringent quality control measures, and environmentally responsible practices to deliver exceptional products to our customers.

CRAFTWAVE
& COMPANY

- Our Mission

At Craftwave, our mission is to deliver superior quality textile paper cones that help our customers optimize their production processes, reduce waste, and improve overall efficiency. We are dedicated to providing innovative, durable, and eco-friendly products that meet the highest industry standards while ensuring consistency and reliability.

Our commitment to sustainability is at the core of our mission. We are passionate about minimizing our environmental impact through the use of renewable resources and sustainable manufacturing practices. By prioritizing environmental responsibility, we ensure that our products not only support the productivity of the textile industry but also contribute to the well-being of the planet.

CRAFTWAVE

Why Choose Our Paper Product?

- Quality : Crafted from high-quality materials, our paper Product are designed to withstand the rigors of high-speed winding, ensuring minimal breakage and downtime.

- Precision : With exacting dimensions and a smooth finish, our Product provide consistent yarn tension, leading to a higher quality of end products.

- Strength : "Strength That Holds: Premium Yarn Paper Product for Every Need.

4 Deg 20' Cones – Regular, Nosed or Plain Point.
These cones are used in two-for-one twisters, yarn doubling machines and also in the latest model Autoconers.

3 Deg 30' Cones – Crimped Nose.
These cones are used to wind rayon, nylon and other filament yarns. Heavy- weight cones are used for constructive yarns and extra large packages

5 Deg 57' Cones – Regular, Straight or Plain Point Nose.
These cones are mainly used for winding single and multiple cotton threads, synthetic yarns, twines, and so on. They are used in latest high-speed Autoconer machines of famous brands like Savio, Schlafhorst, Murata, etc.

Paper Tubes - are specially designed to suit all needs of fabric and yarn winding. Developed using the finest grade of recycled paperboard and high-performance machinery, these paper tubes find their extensive use in POY winding, DTY winding, FDY winding, open-end spinning, fabric and jute winding, non-woven fabric, carpet yarn winding and much more.

OUR QUALITY RANGE OF PRODUCTS

4 Deg 20'

PRODUCT FEATURES

Shape :	Conical
Length :	169-171MM (As per Requirement)
Weight :	35-50gm(As per Requirement)
Top ID :	26/27.5 /28(As per Requirement)
Bottom ID :	58/59MM
Thickness :	2-3.5MM
Pattern :	Plain / Printed
Surface FInish :	Velvet / Grooving / Lining

* It is Recyclable and Eco Friendly *

3 Deg 30'

PRODUCT FEATURES

Shape :	Conical
Length :	170-172MM (As per Requirement)
Weight :	30-35gm(As per Requirement)
Top ID :	17MM
Bottom ID :	46MM
Thickness :	1.5-2MM
Pattern :	Plain / Printed
Surface FInish :	Velvet / Grooving / Lining

* It is Recyclable and Eco Friendly *

■ 5 Deg 57'

PRODUCT FEATURES

Shape :	Conical
Length :	170-171MM (As per Requirement)
Weight :	38-50gm(As per Requirement)
Top ID :	28MM
Bottom ID :	68MM
Thickness :	2-3.5MM
Pattern :	Plain / Printed
Surface FInish :	Velvet / Grooving / Lining

* It is Recyclable and Eco Friendly *

Velvet Finishing – In most yarn winding applications, tension at the traverse extreme pulls the yarn towards the cone centre. To solve this problem, we provide suitable Velvet Finishing to the surface of the cones. The Velvet Finish surface is ideal for fine cotton yarns and prevents damage to delicate filaments of synthetic fibres. It not only securely holds the yarn in place but also allows for the printing of colors and patterns.

Grooves – Reserve Groove for yarn tail placement is available as well as other grooves for special needs.

Notches – V, Y, U, and I notches are available according to customers' specifications.

Printing – The paper cones produced can be printed with inks on its top nose and tapered ends in different colours and easily recognizable patterns, so as to identify the yarns with various counts which would make it easier for your employees and customer to handle. Customer logos, unique symbols or signs can be printed on the cones for branding purposes.

OUR COLOUR PATTERNS
